Pallium® Needle

Pallium® Needle: is a disposable tru-cut soft tissue biopsy needle, ideal for obtaining large and fully intact core tissue samples for cytological evaluation.

Compatible with the Pallium® Gun and BARD® Magnum® Biopsy Instruments.

Features:

- Compatible with the **Pallium® Gun** and **BARD Magnum®** Biopsy Instrument
- Echogenic enhanced tip for placement under ultrasound guidance
- Cannula with "**Menghini**" sharpening for atraumatic and precise cutting of soft tissues
- Facilitates accurate depth placement with centimeter markings on the outer cannula
- The stylet features an **ultra-sharp trocar tip** and **18.5 mm specimen notch** to capture the sample
